Performance related bonus

Pension scheme

25 days holiday plus applicable statutory holidays

Life assurance

Your work is appreciated

Due to continuous expansion, Summit Platforms are recruiting **Workshop Based Engineers** and **Mobile Engineers** to join their Bristol depot.

It would be preferable, but not essential, for engineers to be NVQ Level 2 qualified and hold a CAP card. If you do not hold either of these qualifications, we still want to hear from you as full training will be given. If you have an interest in Engineering, or experience in a similar field, please get in touch.

We care about your development and offer the support and training you need to become the best you can be.

Successful applicants will be offered an excellent remuneration package and benefits.
