Dear Matt,

On behalf of Midland Freewheelers Blood Bikes I would like to thank you all at **Summit Platforms** for kindly providing us with a platform for the recent upgrade work on our garage. This has helped us make it a brighter, safer environment for our riders when they are collecting and returning bikes for duties.

Midland Freewheelers is a charity run entirely by volunteers transporting blood, platelets, donated breast milk and other urgent items, free of charge to the NHS, 24/7. We rely heavily on donations given to us by the public and tireless fundraising by our members. These funds cover not only the purchase of the motorcycles, but also to fuel and maintain them. We do not receive any government funding.

We also work in conjunction with Midlands Air Ambulance for a clinical trial that sees them using blood products at the roadside. We are delivering these products to their base at Cosford every other evening.

Through your support we are able to continue with our work providing a free service to the NHS saving them both time and money which can be redirected and used to deliver direct patient care.

Kind Regards

Lorraine Gough
Chairman
